	Environmental Management System Policy	Issue Date: May 2015

Environmental Policy Statement

Hesto Harnesses (Pty) Ltd. a manufacturer of automotive wiring harnesses and supplier of components, recognizes its responsibilities for the wider environment and to the local community. It is committed to comply with all applicable environmental legislation at local, regional and national level and other requirements as a minimum performance, and to continually improve environmental performance through the following:

- Implementing appropriate environmental initiatives
- Implementing controls
- Provision of resources
- Training of persons working for or on behalf of the organization.

The aim is to minimize adverse impacts on the environment by managing the activities, services and products associated with our business

Management objectives and targets are established and reviewed on a regular basis to implement the Environmental Policy. These are based on a commitment to the following environmental principles:

- Prevention of pollution
- Minimization of energy and material usage and the production of waste
- Effective and responsible waste management and disposal
- Promoting reuse and recycling of products
- Maintaining a high awareness of environmental issues with all stakeholders including suppliers, service providers and contractors.

The effectiveness of the Environmental Management System is monitored and maintained by regular audits and Management Review.

This Environmental Policy is communicated to all employees and made available to the public and can also be viewed at www.hesto.co.za.

The Environmental Aspects & Impacts are made available to interested parties on request. The involvement of its workforce and external interested and affected parties in its Environmental Policy is encouraged through effective communication procedures.

 Managing Director John Chandler
